cleaning  
pro+ 

Dear Customer, User!  
since you are holding our catalog in your hands, it means you are looking for a reliable washing and cleaning device.

If you do not know us yet... we have been manufacturing sprayers since 1989. We are constantly improving things, mastering the details and refining products to meet your expectations and make your work easier. Our main focus is not only the technical innovations. We are primarily oriented to safety. Equally important for us are durability and reliability as this will allow you to enjoy working with our sprayers for many years.

The Cleaning PRO+ series sprayers are the highest quality equipment for the most demanding users – professionals. This series of products has special features which distinguish them from similar devices. Thanks to these unique solutions work becomes easier and more enjoyable.

We also have something for users looking for equipment to do the most difficult tasks. This is the HEAVY DUTY series intended for acidic and alkaline agents; devices that are extremely durable, resistant to very strong chemicals.

Remember you can fit additional useful accessories to each of our products which will increase the application options of the sprayer and thus you will be able to easily and quickly adapt it to your needs.
