

FLOOR & WINDOW CLEANING TOOLS

NEW

MISSION

Develop, produce and market durable, innovative and competitive tools for

- floor cleaning
- window cleaning
- wall cleaning

to be sold in retail and professional markets.

MILESTONES

Foundation of Moerman
> brush manufacturing

Launch of Aqua Wiping
Household concept

First developments and
production of floor squeegees

Additional production
capabilities in China

First export to the Middle East
under the Vero brand

Ongoing development and product
innovations

Foundation of Moerman Americas
> sales in the Americas

Moerman enters the professional
window cleaning market

Acquisition of Vero Int.
> Vero brand & expand sales
network

Moerman continues to excellence
with new product launches

More than 125 years experience
Continuous innovations

SALES ORGANISATION

Worldwide sales 75+ countries across the globe

Headquarters: Moerman nv, located in Meulebeke, Belgium

Sales to Europe, Middle East, South America, Africa, Asia & Australia

Branch office: Moerman Americas Inc., located in CA - San Ramon, USA

Sales to North America

Our people are committed to respond to the customer's needs

PRODUCTION & WAREHOUSE FACILITIES

State of the art production

BELGIUM

Fully automated mass production

Factory & warehouse: 11.000 m²
600 m² offices and showroom

CHINA

Labour intensive production

Besides our state of the art production facility in Belgium,
we also have production capabilities in China

Mass production capacity = high flexibility
and an excellent price/quality ratio

OUR STRENGTHS

Experience

- + 125 years of experience
- Solid experience in production and innovation
- Moerman floor squeegees are the universal benchmark

Production

- Mass production capacity
- Fully integrated production process
- Belgium: state of the art technology
- high degree of automation
- China: BSCI certified + audited by major companies

Research & development

- Continuous efforts to improve and innovate
- In house development team
- Dedicated developments for OEM

Service

- Pro-active customer service
- High degree of flexibility and reliability
- Direct and frequent contact with the market

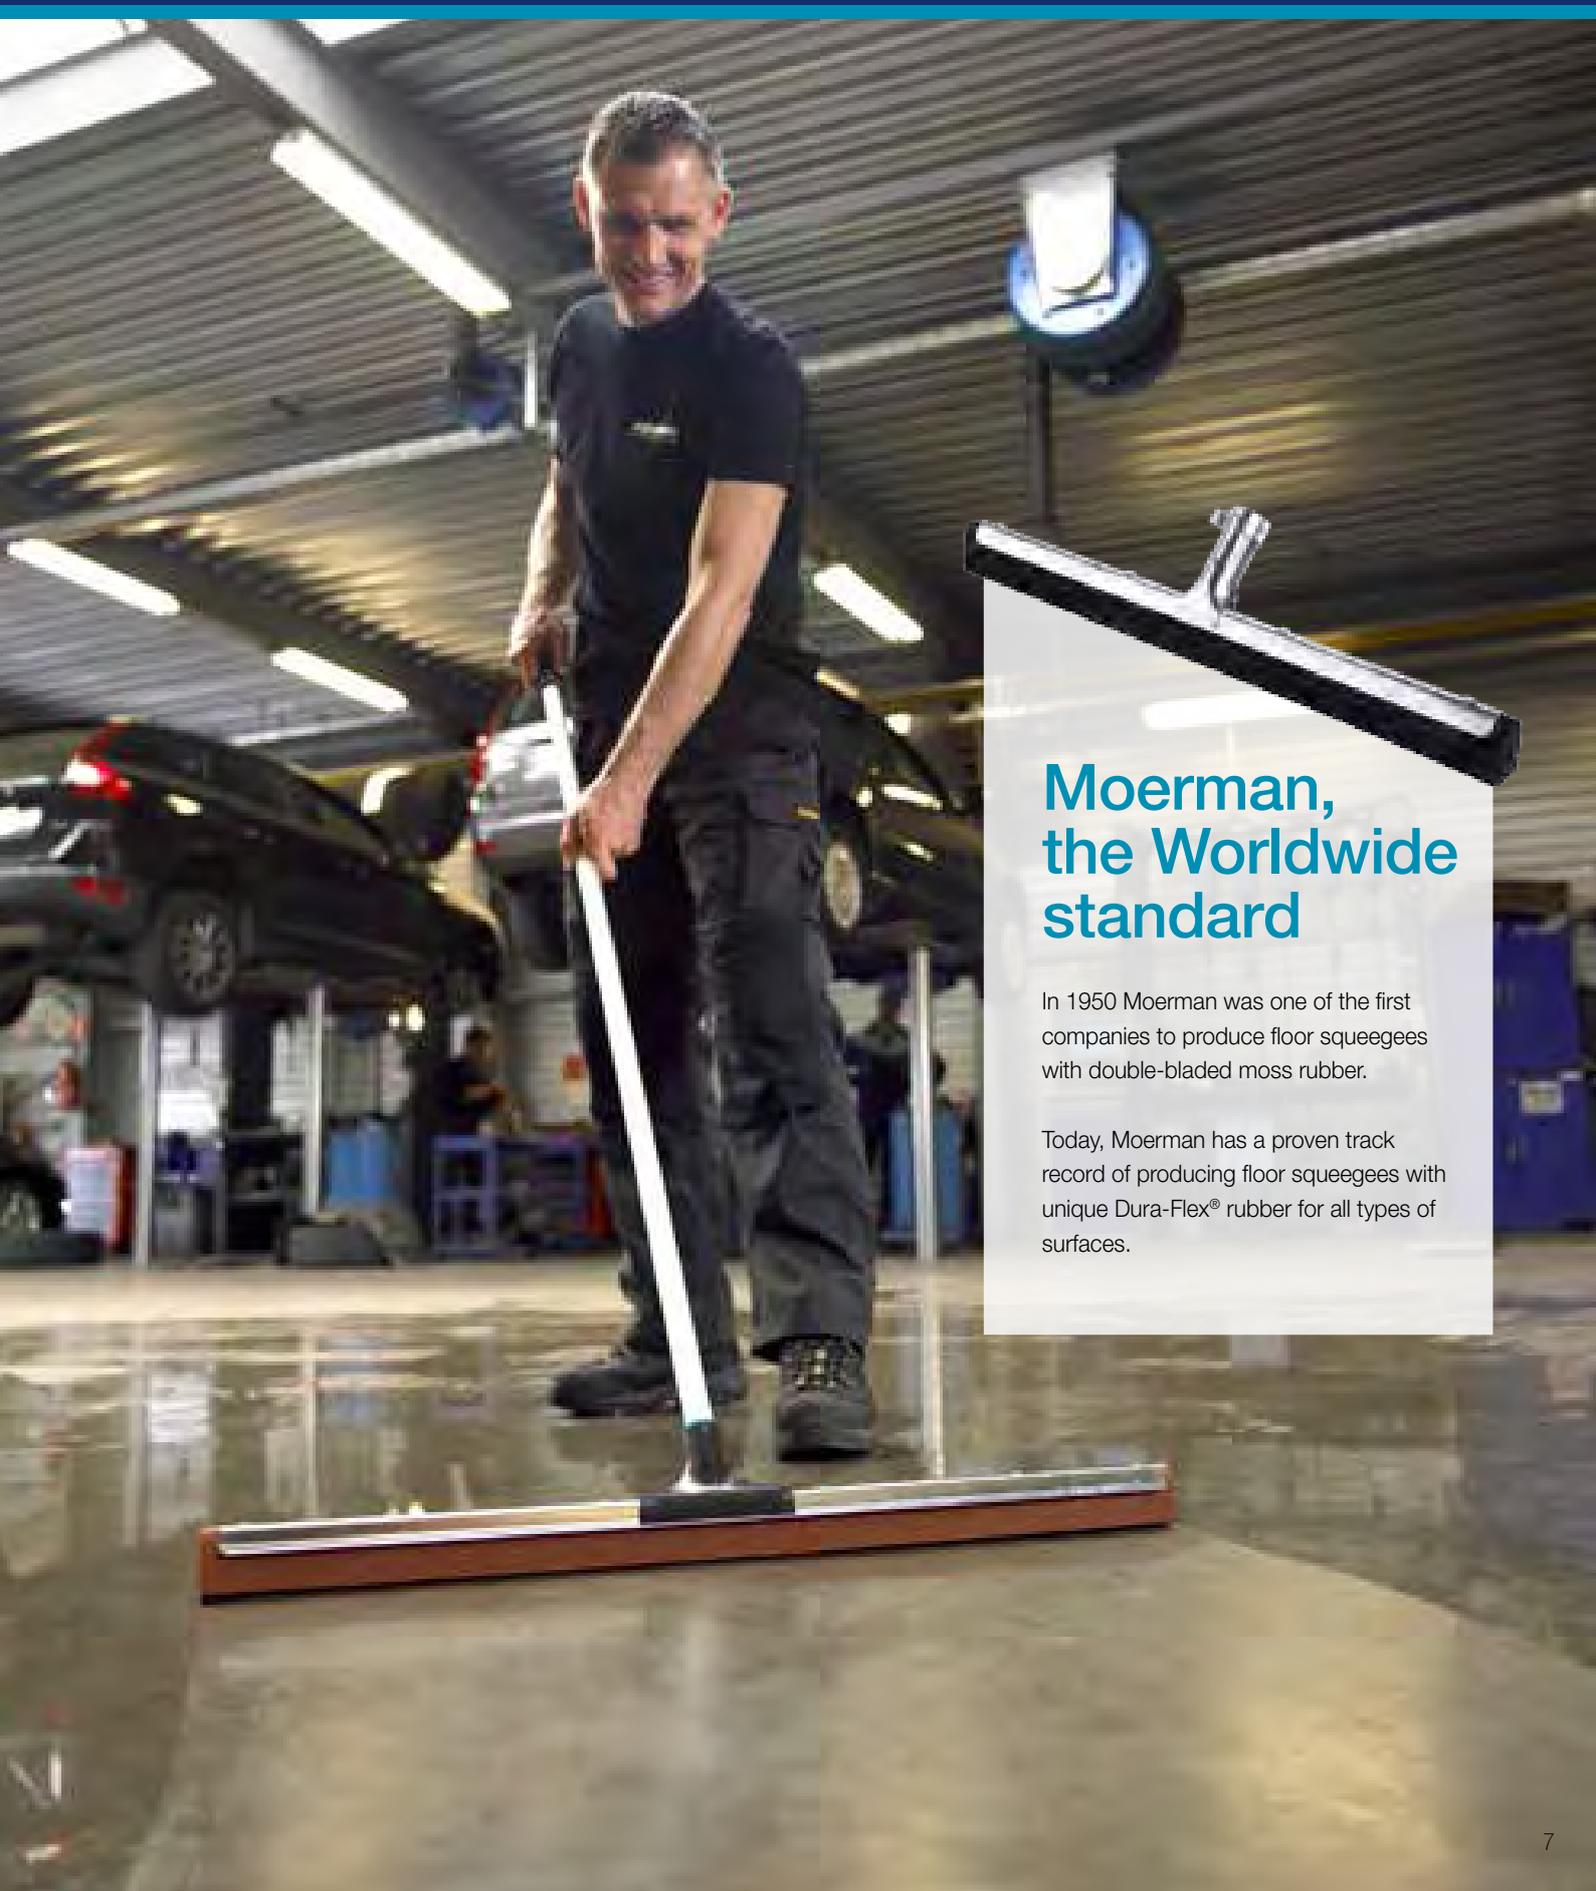

Quality

- High quality products
- Dura-flex® rubber
= unique natural floor and window squeegee rubber

Moerman, your trusted partner
for a successful business

FLOOR CLEANING

A close-up image of the head of a Moerman floor squeegee, showing the double-bladed moss rubber and the metal handle.

Moerman, the Worldwide standard

In 1950 Moerman was one of the first companies to produce floor squeegees with double-bladed moss rubber.

Today, Moerman has a proven track record of producing floor squeegees with unique Dura-Flex® rubber for all types of surfaces.

FLOOR CLEANING

Unique know how of natural rubber

The Dura-Flex® moss rubber used for our floor squeegees is the best rubber in the world for floor cleaning. The moss rubber blades have been especially developed to fit the application of floor squeegees.

Dura-Flex® Rubber - Natural Moss Rubber

- **Durable** - lasts longer
- **Strong & Flexible:** extreme high resistance to tearing and abrasion
- **Excellent elasticity:** the blades dig deep into uneven surfaces and recover their shape after use
- **Closed cell rubber:** has perfect density and does not absorb water.
The natural skin adds strength and helps prevent bacteria from harbouring inside the squeegee.
- **Multi-surface:** use on both smooth and uneven surfaces like concrete, brick, tile and marble
- **Double rubber blade:** double cleaning - superior cleaning results

A specific rubber for every application

Black Dura-Flex® rubber

- Good general all-purpose rubber
- Ideal for cleaning areas where resistance to heat and oil is not required
- Popular in light commercial, schools and public facilities

Caution: black rubber can leave spots on pale floors

White Dura-Flex® rubber

- Used when hygiene is an important factor
- Users can easily see when the squeegee needs to be replaced
- Preferred to cleaning sanitary rooms, swimming pools, ...

Red Dura-Flex® rubber

- Contains Neoprene to give excellent resistance to oils, acids, greases and solvents
- Preferred in factories, auto care and maintenance facilities

Green Dura-Flex® rubber - unique rubber!

- The green blade is produced with materials approved by the FDA*.
- Recommended when hygiene is extremely important
- Preferred in food service and health care facilities

**The Food and Drug Administration is one of America's oldest and most respected consumer health protection agency*

FLOOR CLEANING

Branding in metal frame

All our Moerman metal squeegees with natural rubber are Dura-Flex® branded.

Explanatory coloured label

All our squeegees with natural rubber carry an explanatory coloured label.

Explanation for which usage the rubber is used best

- Black natural rubber = general use
- White natural rubber = hygienic use
- Red rubber = oil resistant

Dura-Flex® brand = guarantee that the squeegee has the best rubber = perfect results

Differentiation of rubber types

Quality hallmark = strengthen market position!

MICROFIBER - PREMIUM & SILVER SLEEVE

In our microfiber sleeves, the fiber is split during the manufacturing process to produce multi-stranded fibres.

The split fibres and the size of the individual filaments working in conjunction with the spaces between them makes the cloths more effective than other fabrics for cleaning purposes.

The structure traps and retains the dirt perfectly and also absorbs liquids.

PREMIUM SLEEVE

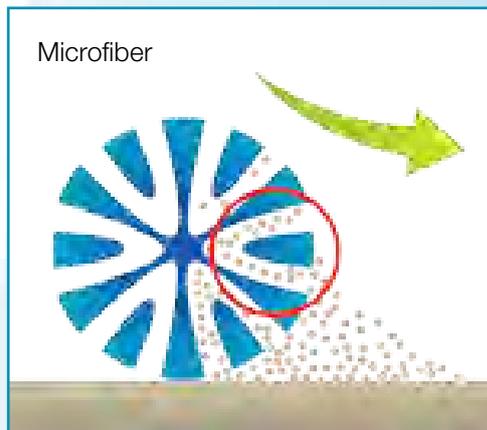

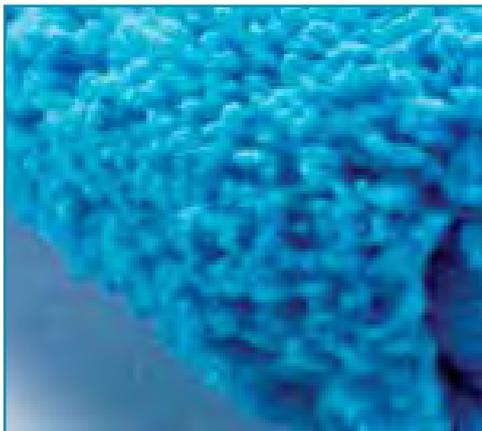

Double hook & loop fastener

- Premium Microfiber sleeve
- Preferred by professionals
- Superior cleaning power
- High water retention
- Machine washable
- Lint free
- Excellent dirt pick-up

Scubbing pad - Extra cleaning power

Extremely long fibres for unequalable absorption!
